SUBJECT INDEX TO VOLUME 64

N-Acetylmicroperoxidase-8, antimalarial drug interaction with heme-octapeptide and, 7
Amnio acids, copper(II) binding to DNA and, 273
Antibiotics, stability constants of copper(II) mixed complexes with quinolone, 207
Anticonvulsant drugs, valproate, copper(II) complexes of, 55
Antimalarial drugs, interaction with heme-octapeptide and *N*-acetylmicroperoxidase-8, 7
Antitumor activity
  dioganotin(IV), DNA binding studies, 181
  platinum and spermine compounds, 287
  platinum(II) complex synthesis with *trans* -3,4-diamino-2,2,6,6-tetramethylpiperidine-1-oxyl and, 69
  rhodium(II) carboxylate adducts, water-soluble, *1*
Antiviral agents, 1-deoxynojirimycin, copper(II) interactions, 231
Bovine nutritional supplement, lysine-complexed copper as, 215
Cadmium, 5,7-dimethyl-[1,2,4]triazolo[1,5-a]pyrimidine complexes and, 259
Captopril, polymeric gold(I)-captopril complex, characterization of, 37
Chromium(IV), role in chromium(VI)-related free radical formation, 2'-deoxyguanosine hydroxylation, and DNA damage, 25
Chromium(VI)-related free radical formation, chromium (IV) and, 25
Cinoxacin, stability constants of copper(II) mixed complexes with, 207
Ciprofloxacin, stability constants of copper(II) mixed complexes with, 207
Cobalt carboxypeptidase A, D-phenylalanine binding to zinc and, 149
Cockroach transferrins, metal ion-binding properties in vertebrate and, 247
Copper
  in biological systems, seventh Manziana Conference, Santa Severa, September 1995 and, 79
  blue copper proteins, seventh Manziana Conference, Santa Severa, September 1995 and, 79
  copper-containing oxidases, seventh Manziana Conference, Santa Severa, September 1995 and, 79
  magnetic resonance methods in copper protein research, seventh Manziana Conference, Santa Severa, September 1995 and, 79
Copper(II), amnio acids and DNA binding with, 273
Copper(II) complexes
  1-deoxynojirimycin interactions, 231
  hydroperoxide reactions, 197
  lysine-complexed, as bovine nutritional supplement, 215
  quinolone antibiotics and, 207
  valproate, 55
Cytotoxicity
  platinum and spermine compounds and, 287
  rhodium(II) carboxylate adducts and, 1
2'-Deoxyguanosine hydroxylation, chromium(IV) and, 25
1-Deoxynojirimycin, copper(II) interactions, 231
  trans-3,4-Diamino-2,2,6,6-tetramethylpiperidine-1-oxyl, platinum(II) complex antitumor activity and synthesis with, 69
5,7-Dimethyl-[1,2,4]triazolo[1,5-a]pyrimidine, zinc, cadmium, and mercury complexes, 259
Dioganotin(IV) antitumor agent, DNA binding studies, 181
Dioxygen and nitrous oxide reductases, seventh Manziana Conference, Santa Severa, September 1995 and, 79
DNA binding
  amnio acids and copper(II) ions in, 273
  platinum and spermine compounds, 287
DNA binding studies, *dioganotin(IV)* antitumor agent, 181
DNA damage, chromium(IV) and, 25
Electron spin resonance spin trapping studies, *hydroperoxide reactions with copper(II) complex, 197*
Embryonic hemoglobin, heme stability in human, 137
Gold(I)-captopril complex, characterization of polymeric, 37
Hemantinics, polysaccharide-iron complexes used as, 225
Heme, stability in human embryonic hemoglobin, 137
Heme-octapeptide, antimalarial drugs interaction with N-acetylmicroperoxidase-8 and, 7
Hemoglobin, heme stability in human embryonic, 137
Hydrogen peroxide, insulin receptor binding and, 163
Hydroperoxide, reactions with copper(II) complex, 197
Insulin receptor binding, peroxovanadates and, 163
Iron complexes, polysaccharide-iron complexes, used as hemantinics, 225
Lomefloxacin, stability constants of copper(II) mixed complexes with, 207
Lysine-complexed copper, as bovine nutritional supplement, 215
Mercury, 5,7-dimethyl-[1,2,4]triazolo[1,5-a]pyrimidine complexes and, 259
Metal ion-binding properties, in cockroach and vertebrate transferrins, 247
Nalidixic acid, stability constants of copper(II) mixed complexes with, 207
Norfloxacin, stability constants of copper(II) mixed complexes with, 207
Nucleoside reactivity, platinum and spermine compounds, 287
Nutritional supplement, lysine-complexed copper as bovine, 215
Oxolinic acid, stability constants of copper(II) mixed complexes with, 207
Oxygen activation, copper(II) interactions with 1-deoxynojirimycin and, 231
Peroxovanadates, insulin receptor binding and, 163
Phenanthroline,
  $(C_2H_5)_2SnCl_2$(phen), DNA binding studies, 181
D-Phenylalanine, binding to zinc and cobalt carboxypeptidase A, 149
Platinum(II) and (IV), synthesis and characterization of spermine and, 287
Platinum(II) complexes, antitumor activity and synthesis with *trans*-3,4-diamino-2,2,6,6-tetramethylpiperidine-1-oxyl, 69
Polysaccharide-iron complexes, used as hemantinics, 225
Proteins, heme stability in human embryonic hemoglobin, 137
Quinine, interaction with heme-octapeptide and N-acetylmicroperoxidase-8, 7
Quinolones, stability constants of copper(II) mixed complexes with, 207
Rhodium(II) carboxylate adducts, water-soluble, 1
Serine, amnio acids and copper(II) binding to DNA, 273
Seventh Manziana Conference, Santa Severa
  September 1995, copper in biological systems, 79
  September 1995 and, superoxide dismutases, 79
Spectroscopic studies, polymeric gold(I)-captopril complex, characterization of, 37
Spermine, synthesis and characterization of platinum and, 287
Threonine, amnio acids and copper(II) binding to DNA, 273
Transferrins, metal ion-binding properties in cockroach and vertebrate, 247
Valproate, synthesis, characterization, and oxidase activities of copper(II) complexes of, 55
Vanadate, insulin receptor binding and, 163
Vertebrate transferrins, metal ion-binding properties in cockroach and, 247
Zinc
  5,7-dimethyl-[1,2,4]triazolo[1,5-a]pyrimidine complexes and, 259
  D-phenylalanine binding to cobalt carboxypeptidase A and, 149
